had there been formerly, witness was of opinion the joists would have shown the effects much plain than they did. To sum it up, the kitchen floor and ceiling were in a good condition. The portion of wall left standing did not appear to be in good condition. There were cavities in it due to the masonry of the bricks, and it was not properly bonded. The pulling-down of the other houses had deprived No. 16 of support, to compensate for which shoring was necessary. The shoring he saw he did not consider to be good shoring, although it was of the class usually employed in Hongkong. (Witness handed in a rough sketch showing how, in his opinion, shoring ought to be carried out.) He did not consider that the shoring was sufficient. As to the plan shown him, he did not think anyone was entitled, judging from what was shown on that plan, to touch No. 58, because, being a numbered house, it was not mentioned in the notice, which spoke only of houses 27 & 41, Centre Street.

By Mr. Goldring—He considered there were indications before the collapse that the wall needed support.

The enquiry was adjourned until this morning at ten o'clock.

NEW PACIFIC MAIL LINER.

"KOREA" AT HONGKONG.

The new Pacific Mail ship, Korea, which has arrived in Hongkong from San Francisco has provoked much interest at all the ports she has touched at en route and no less is shown in object of comment here, in this rendezvous of all classes of shipping. When her tonnage (3,555 net) is taken into account the vessel does not strike one as being of great dimensions; particularly noticeable are her long, fine lines and speedy look. The main dimensions of the Korea are: length 210 ft., beam 28 ft., draught 11 ft. 6 in. The hull is of steel, and the vessel is 11,276 gross tons in weight. There are 108 state-rooms, 59 bunks, and 23 first cabin, 54 second cabin, and 1,144 sleeping passengers. The ship's crew consists of the master, a first-class pilot, 3 mates, 7 engineers, 45 firemen, 14 others, 6 water tenders, 40 coal passers, 3 watchmen and look-outs, 38 deck crew and 40 persons in the purser's and steward's departments. There are 15 watertight cross bulkheads, 5 anchors and 2 drags. A Leyla gun is on board for firing the life-line apparatus. There are 30 fire-escapes, 1,650 feet of hose and 10 axes, all for fighting the flames; while in the library on board are two copies of the Steamboat Law and two copies of the Pilot Rules, in accordance with the law of the United States.

The size of the Korea the visitor begins to appreciate when he gets on board. Descending the companion-way to the dining saloon, one finds that apartment to be surprisingly spacious. It can accommodate 202 people at dinner. The dining-tables are covered with green cloth and the floor with dark red carpet, and the scheme of decoration is tasteful. The colour of the walls and ceiling is dark cream and at intervals are marine paintings with well-mounted frames—all forming part of the wall. The pillars of the saloon are surmounted with gilt mouldings, and as one looks up through the aperture of the social hall, the stained-glass dome on the upper promenade deck meets the eye. The staterooms are of an up-to-date description and ample for any emergency comprising 12 life-boats, 8 life-rafts and 1,720 life-preservers. At the stern is a fine set of steering gear, driven by machinery which can be used in case of a breakdown; this is named the Brown Steam Tiller.

The Korea is under the experienced captaincy of Commander W. B. Seabury.

Captain J. Tremaine Smith has been appointed by the Pacific Mail Company to command the liner Siberia. Captain Smith is one of the oldest and best-known of the Pacific Mail captains, for years past being in command of the City of Peking. The new liner is a duplicate of the Korea, and, like her, will be used for the route connecting San Francisco with Hongkong, by way of Honolulu, Yokohama, Kobe, Nagasaki and Shanghai.

SPORTING NOTES.

To-day the local cricket season opens with a contest between the First XI and All comers (XXII). The game will commence at 11 a.m., and members are particularly requested to be punctual. The teams are as follows:—

1st XI.—Capt. H. S. Metcalley, H.K.R.; Capt. G. D. Campbell, H.K.R.; G. Moore, R.N.; William Dixon; A. P. Silver, R.N.; B. B. Garde, R.N.; Capt. D. Clapham, R.A.; J. Hooper; A. R. Lowe; Lieut. France-Hayhurst, R.W.F.; S. Powell; and G. A. Woodgate.

All comers XXII.—Major S. G. Radcliffe, 33rd B.L.; Lieut. A. J. Sutor, R.A.; W. B. Leitch, R.A.; Lieut. H. W. Smith, R.A.; G. Moul; Lieut. C. L. Bland, R.A.; W. W. Clark; W. C. D. Turner; Major W. A. Denny; C. P. Chas. T. C. Gray; Major S. F. Clark, R.A.M.C.; W. H. Robertson; Major E. T. Buttanshaw; P. W. Goldring; C. P. Lamert; Dr. E. H. Meaden, R.N.; Lieut. J. D. Vennables, R.W.F.; A. Humphreys; F. D. Bain; J. P. Jordan; Lieut. C. G. Bird, R.M.L.L.

A good deal of practice at the nets has been proceeding this week, and batsmen have found out that it will take them some to get their eyes in, judging by the records they furnish of the number of times they have been bowled or caught at the nets.

The publication of the list of the eight six-side teams to compete for the Challenge Cup promises some good games for the month of October. The results so far have been that Clarke's team drew with Worcester's on Thursday (4-0), and yesterday Kov's team beat Anderson's by 1-0. It is difficult to select the probable winners, as experience shows the sides vary a good deal, and in a side of six only, the absence of one good man makes an enormous difference.

The final tie for the Royal Artillery Polo Trophy was played off yesterday afternoon on the Polo Ground at Causeway Bay, the competitors being the R. A. C. Civilians. In the preliminary game on Wednesday, the R. A. defeated the 15th Bombay Infantry by 2 goals to 1 subsidiary. Yesterday's match was very fast and was all in favour of the Civilians, who kept up their past reputation by again winning the Trophy by the handsome advantage of 4 goals and 1 subsidiary to nil. The teams were as follows:—Civilians: Hon. F. H. May, Messrs J. Hastings, W. A. Cruickshank, and E. C. Pontifex. R. A.: Captain Morris, Captain Stevenson, Captain Boyd, and Lieut. Baidam Thornhill. At the conclusion of the game the ceremony of presenting the Trophy to the winners was gracefully performed by Mrs. Johnson, wife of Colonel R. F. Johnson, Commanding the Royal Artillery. Hon. F. H. May accepted the Trophy on behalf of his team, and Mrs. Johnson was thanked in time-honoured fashion for her services. (There was a large attendance of spectators, including many ladies. The band and pipers of the 33rd Burma Infantry played a fine programme of music during the meeting.) To Captain H. O. S. Cadogan, M.W.F., the Hon. Secretary of the Polo Club, thanks are due for the excellence of the arrangements in connection with the matches.

The lucky season of 1902-3 should be the best on record since the game was played in Hongkong. The institution of a challenge shield would be very popular and indeed should attract almost as many entries as the Association Football Shield. If funds do not run to a shield being purchased a competition may still be got up, with badges for the winning team. There ought to be a number of good teams among the Fleet, better indeed than the ships' football teams, some of whom are rather crude in their notion of the game.

As far as one can see, the new griffins are a better average lot than those of last year and show more quality. There are not so many that at a glance one would condemn as being being totally unfit for racing purposes, or in fact for any purpose at all. I can never fancy skewbalds, piebalds, and creams as being desirable colours for race-horses, and I am glad that they are conspicuously absent in this season's contingent. Whether we have got the value in ourselves which can reasonably be expected for the price paid is a difficult problem to solve. Possibly the general opinion inclines to the idea that we have not got it, that might be expected. Whatever class of animal we get, however, some will be better than others, and on the whole I do not think we have been badly served. Everyone can't win the Derby, and everyone who subscribes for a griffin knows beforehand that he is going in for a lottery, and I think he should be content if he gets a pony which is worth for some purpose or other, and which is worth more than what it cost him such a person should consider himself in luck, especially if he only subscribes for one animal, for it is apparent that a person who subscribes for more than one pony must according to the ordinary law of chance have more probability of drawing a flyer than the one who subscribes for a single pony.

There are quite a number of people at the races every morning now, and a few owners are taking time by the forelock. Undoubtedly the ponies which are under the care of Mr. Gogg, as manager of Kennedy's stables, are being better fed, and the interests of owners looked after, in a manner that has never been done before by that establishment. Owners of all classes of horses will appreciate the very desirable change that has taken place in this direction.

At the Hongkong Rowing Club the fall in temperature has produced a certain amount of renewed life, and an occasional four may be seen splashing its labours away towards Taumata, giving promise of better things and more animation among the members of the Club.

The first of the usual scratch races will probably be held in November, and it is rumoured that a match has been arranged between crews representing two of the regiments stationed in Kowloon. The boxing and gymnastic classes will also be resumed in November. Socially the season will commence with a smoking concert which is to be held at the S. Andrew's Hall next Saturday, which should prove a distinct success.

The postponed Championship of the Hongkong 600 Club comes off on Monday, Tuesday, and Wednesday next, the Ladies' Nomination Competition being decided on the last day. There is a meeting of the Rifle Association to-day at 2.30 p.m., when the Nursery Cup and Spoons will be competed for at the 200, 500, and 600 yards range.

I hear that the Hongkong team for the annual Interport Match is not likely to be so strong as of late years, unless indeed some of the new blood proves above the average. Last year, it will be remembered, the Hongkong score was remarkably fine, considering that the new Disley targets were used for the first time. Hongkong has won the last four contests and will no doubt fight hard for a fifth successive victory.

The annual general meeting of the Craig-gower C.C. is down for Monday, the 6th inst., at 5.30 p.m., in the Pavilion, Wongachue-gong.

BOXES AT THE POST OFFICE.

There has just been introduced into the Post Office, under the direction of Mr. E. Cornwell Lewis, Acting Postmaster, a new style of box for the convenience of box-holders. These boxes are fitted with patent American keyless locks, of a description which has been largely adopted in the United States and elsewhere. The framework in which they are fitted is situated at the top of the steps of the delivery department door in Pedder Street. All that a box-holder (or his servant) now requires to do in order to secure his mail is to manipulate the dial on his box so as to make the particular combination which serves to open it. This mechanism is of the simplest nature and yet is capable of defying the attentions of any one but him who is the possessor of the combination. There are in all 370 small boxes and 50 large ones. Each of these has its own combination; if a holder should at any time wish to change his combination this can be easily effected, as the number of those is almost infinite. Already the new system has got a severe testing through the delivery of the steamer and American and German mails, and although there was in the first instance necessarily a certain amount of delay and worry consequent upon the novelty of the thing, it promises to be a great success and a convenience to box-holders. From the point of view of the hard-worked Post Office employees, it will lead to greater facility in the delivery of mails and will lessen the chances of mis-sorting. It is rather a notable thing that some of the old arms of Hongkong look with disfavour (or something like that) upon the new departure, preferring to adhere to "old custom."

NEWS VIA CRYLON.

SOUTH AFRICAN AFFAIRS.

THE BOER LEADERS.

London, 13th September.
Reports are afloat of divisions in the Boer camp. The Brussels correspondents of the Standard and the Daily Telegraph agree in stating that the Generals' mission to London has led to a complete rupture between them and the Irreconcilables. The Generals attribute their failure to the violent attitude of Mr. Reitz and the defiant language of the Kruger dignitary.

London, 15th September.
A result of the Conference which have been held between the Boer Generals and the Boer Delegates is that the Irreconcilables are to be asked to moderate their anti-British propaganda.

GLANDERS IN THE TRANSVAAL.
London, 15th September.

BOER DIFFERENCES.

London, 16th September.
A Laifan telegram from Amsterdam alleges that the differences between the Generals and the Krugerite party, which have been brewing for some time, have now definitely come to a head. In fact, there has been a complete rupture between the two factions. It is believed that the result will be that the Generals will return home at once. The action of the Pan-German League, in inviting the Generals to Berlin, has thrown German officials into amusing consternation. The Berlin correspondent of the Morning Post states that the Generals will be asked to address a series of meetings, and possible consequences in the shape of friction between Germany and Great Britain are feared.

London, 16th September.
The United States has forwarded to the Powers signatory to the Treaty of Berlin, whereby the Balkan States were created, an intentional Note protesting, in the name of humanity, against Roumania's treatment of the Jews, whose condition is a matter of grave concern to the United States, which cannot be taken as a party to international wrong. The Note appeals to the Powers to enforce the stipulations of the Treaty of Berlin. The United States is not a signatory thereto, but the action of Roumania has effectively joined the United States to the signatories as an interested party.

CENTRAL AMERICA.

London, 14th September.
Venezuelan revolutionists, armed with cutlasses, have surprised the town of Losques, and killed 60 and wounded 149 of the Government troops.

RUSSIA AND "IBET".
London, 19th September.

The St. Petersburg correspondent of the Globe sends the text of an alleged treaty between Russia and China on the subject of Tibet, according to which the contracting Powers bind themselves to common action in case of any third Power stirring up disorder in Tibet, which is gradually to become independent. Russia is to train the Tibetan forces. The treaty is to be signed by the Russian and Chinese plenipotentiaries in London. There is no confirmation of the foregoing; the news is dubious.

A WONDERFUL DISCOVERY.

This is the age of research and experiment, when all nature, so to speak, is being explored, and the way for the comfort and happiness of man. Science has been able to gain glories during the past century, and among these glories are the great discoveries in medicine caused by the Therapeutic Preparation known as "Rhone." In another column. This preparation is composed of one of the most genuine and reliable plant medicines known to the world, and has been used in the Continental Hospitals by Rhone, Dr. J. Robert, Velpel, Malsonneuve, the well-known French physician, and others. These men are regarded as authorities in such matters, including the celebrated Lallemand, and Rons, by whom it is being tried since uniformly approved, and used. It is worthy the attention of those who require such a remedy we think there is no doubt. From the fact that it is so successful, we are led to believe that the removal of these diseases has like the famed pill.
